

### 1. Neck

The neck measurement is taken around the neck with the tape resting on your shoulders. You should put one finger between the tape and the neck if you want to allow for some extra room.

---

### 2. Chest

The chest measurement is taken as a circumference measurement around your chest at the widest point. Stand in a relaxed posture and breathe out.

---

### 3. Length to chest

The length to chest measurement is taken from the top of your shoulder, close to the mid side of your neck, down to the point where you took the chest circumference measurement.

#### 4. Chest width

Measure across your chest between the points where your arms meet your torso.

---

#### 5. Waist

The waist measurement is taken as a circumference measurement around your waist just above your belly button. Stand in a relaxed posture and breathe out.

---

#### 6. Length to waist

The length to waist measurement is taken from the top of the shoulder, close to the mid side of your neck, following your body over the chest down to the point where you took the waist measurement.

### 7. Hip

The hip measurement is taken as a circumference measurement around your hips at the widest part.

---

### 8. Length to hip

The length to hip measurement is taken from the top of the shoulder, close to the mid side of your neck, following your body over the chest down to the point where you took the hip measurement.

---

### 9. Seat

The seat measurement is taken as a circumference measurement around your seat at the widest part.

### 10. Length to seat

The length to seat measurement is taken from the top of the shoulder, close to the mid side of your neck, following your body down to the point where you took the seat measurement.

---

### 11. Shirt length

The shirt length measurement is taken from the top of the shoulder, close to the mid side of your neck, following your body down to the point where you want your shirt to end.

---

### 12. Piqué polo length

The piqué polo length measurement is taken from the top of the shoulder, close to the mid side of your neck, following your body down to the point where you want your piqué polos to end.

### 13. Shoulder width

Think of a line going from your armpit straight upwards to your shoulder. Measure between those two points and hold the tape measure straight.

---

### 14. Arm length

The sleeve length measurement is taken from the point of your shoulder (where you took the shoulder width measurement), following your bent arm down to where you want the sleeve to end. NOTE 1! Bend your arm slightly when taking this measurement. NOTE 2! This measurement is always the full length of the arm. For short sleeve and 3/4 sleeve you should still measure the full length of the arm.

---

### 15. Short sleeve length

The short sleeve length measurement is taken from the point of your shoulder (where you took the shoulder width measurement), down to where you want the short sleeve to end.

### 16. Piqué polo short sleeve length

The Piqué Polo sleeve length measurement is taken from the point of your shoulder (where you took the shoulder width measurement), following your arm down to where you want the sleeve to end.

---

### 17. Wrist

The wrist measurement is taken as a circumference measurement around your wrist. NOTE ! We will add movement ease according to the cuff you select.

---

### 18. Biceps

The biceps measurement is taken as a circumference measurement around your biceps. Relax the muscle and measure at the widest part of your upper arm.
